

After a complaint to HSE, all asbestos sheeting has now been cleared

As were these fridges that didn't exist !

According to FBC on 11 August 2011

"There's no truth whatsoever that we're using it for dumping"

"There's absolutely no asbestos whatsoever"

"There are some concrete sheets which somebody may have mistaken for asbestos. We can categorically say that."

"There are no fridges being dumped there"

by 23 August 2011
3 men and 2 five ton skips with special suits and special skip liners had removed the asbestos sheets.

The other rubbish is still there.
